

Wealth of Health Center Patient Policies

Understanding the world has little information about the nature of healing the energy field, we are wanting to make sure you understand and accept the process of healing and our policies related to this practice.

1. No refunds for services or products.
2. There is a fifty dollar (\$50.00) charge for failure to show up for a scheduled appointment. If you provide a minimum of forty eight (48) hours' notice of an appointment cancellation there will be no charge. Appointments can be rescheduled with a minimum twenty four (24) hours' notice without a charge.
3. We have experienced healing at all levels to be a lifetime process not a product that happens with a set amount of clearing, pills needles or injections although we can do all of those.
4. There is no way to determine how long it takes to reach the level of energy and vibrational quality that will allow the energy to flow in your body sufficiently to heal you.
5. Voice printing and other release modalities using energy to release the patterns require the patient to be ready willing and able to tune into the field of energy within them. Most people are unconsciously holding blocks to the flow of energy to the organs, central nervous system and tissues. The goal is to release these blocks, thus allowing the flow of energy. When we release old patterns detoxification may occur. The release of old patterns clears the way to establish new patterns or return us to our original pattern of perfection. Healing is the result of deactivating the energy blocks and or releasing old unhealthy patterns.
6. We have had thousands of patients get the results they were seeking. The deciding factors are the patients' willingness, readiness and ability to allow healing to occur. Additionally there must be faith and trust in the process.
7. Compliance in doing what is necessary to follow the program you will leave the office with as a written protocol and reporting deviations from the established agreed upon program will insure positive results. Individual programs are created by Kinnesioly testing, the results of the computer scans combined with your experience.
8. No two individuals experience Detoxification is the same way. The amount of detoxification required by an individual depends on the individuals life history, traumas experienced, negative emotions experienced, heavy metals ingested and a whole list of other possibilities. The symptoms experienced while detoxifying may feel very strong and unpleasant. It is important to report these to your practitioner and work with correction of program intensity to give you the best support for a tolerable detox – We do it all the time with those who work with us.
9. Understand you must listen to and attend to your response to your program as no one can know fully all the variables you will experience with food, thoughts, behaviors and thousands of variables. We will work with you but only if you report changes you think need to be addressed and take responsibility for the things you have done or not done to contribute to your current condition.
10. It is our education and clinical findings that emotional and physical issues can come from many generations of accumulated patterns and traumas. It is essential to have no expectations

because expectations are blocks to healing. It is our experience that emotional release is an essential part of healing.

11. You are the creator of your reality. In order to heal we must change our patterns by letting them go and by putting new thoughts, beliefs and feelings in place to support you establishing new energetic patterns. We look forward to sharing these with you as you heal.
12. Because we know acceptance is the key to success in anything we want to give you enough information to accept this process. Understand it is based on and drawn from a lifetime of training with the worlds' best healing Doctors.
13. This practice recognizes your right to your religious preference. Whatever that is we want to help you strengthen your connection to your energy/source/creator/higher power (or whatever you prefer to call it) within you.
14. Even though there are numerous skills, modalities and tools listed on our website; the choice of modalities, skills and tools to be use is totally up to the practitioner's discretion which will be based on clinical assessment.
